SUBJECT INDEX

Acoustic Stapedius Reflex in Humans, Decay and Recovery 421
Activity of Auditory Nerve Fibres of the Guinea Pig Cochlea. The Effect of Potassium 39
Afferent Innervation in Cat Vestibular Receptors, Embryonic and Postnatal Development 97
Antibiotics Introduced in the Inner Ear, Vestibular Effects 517
Auditory Brainstem Potentials in Man Evoked by Electrical Stimulation of the Round Window 287
Auditory Cortex in the Human Fetus, the Laminar Organization 241
Auditory Function after Transection of Crossed Olivo-Cochlear Bundle in the Cat. I. 79
Auditory Function after Transection of Crossed Olivo-Cochlear Bundle in the Cat. II. 429
Auditory Implants, Fundamental Considerations in Designing 204
Auditory Nerve Stimulator, a Functioning Multichannel 170
Békésy Audiometry in Evaluation of Hearing in Cases of Raised Intracranial Pressure 441
Bell's Palsy–Beneficial Effect of Treatment with Adrenocorticotrophic Hormone (ACTH) in Patients with a Poor Prognosis 9
Bell's Palsy, Family Aggregation 413
Brainstem Responses in the Newborn and in Preschool Children 270
Caloric Nystagmus in Cats, Visual Suppression 108
Caloric Nystagmus in Cats, Loss of Visual Suppression 499
Cat Vestibular Nuclei, Limb Input 113
Cerebrospinal Fluid Leakage, a New Method of Identification 366
Chorda Tympani Nerve, Function of Submaxillary Gland Following Iatrogenic Damage 152
Cochlear Blood Flow, Perilymph Production 370
Cochlear Electrical Activity in the C57BL/6 Laboratory Mouse: Volume-Conducted Vertex and Round Window Responses 61
Cochlear Hair Cell Loss and Shifts of Masked and Absolute Behavioral Auditory Thresholds in the House Mouse 28
Cochlear Hearing Loss and Viral Infection 247
Cochlear Implants, Designing of and Experience with Multichannel 190
Cochlear Implants, Indications and Results of Multichannel 185

Cochlear Implant Program, Present Status and Future Directions 176
Cochlear Prostheses, Neurophysiological Requirements of Implant 163
Conflicting Electrophysiological and Anatomical Data from Drug-impaired Guinea Pig Cochleas 300
Cytotoxicity of Kanamycin and Ethacrynic Acid for Mammalian Cells in Vitro and their Ototoxicity in Vivo 72
Der Zustand der Ohrtrompete und dessen Einfluss auf das Mittelohr 353
Determination of Cellmediated Immunity against Tumour Associated Antigens in Patients of ENT 400
Development of Hearing in Hereditarily Deaf White Mink and Normal Mink 16
Developmental Study of the Sound Pressure Transformation by the Head of a Cat 434
Distribution of Cyclic Nucleotides in the Organ of Corti 375
Dynamic Rotation. Binocular Counterrolling in Humans 490
Electrical Stimulation to the Auditory Nerve in the Profoundly Deaf 196
Endocochlear Potential during Anoxia 506
Experimental Surgery on the Nose 317
Experimental Tubal Obstruction on the Middle Ear 345
Eustachian Tube Function with Regard to its Related Muscles 84
Finnish Speech Discrimination Test, Simulation of Low-Pass Hearing Loss 445
Following Eye Movements in the Absence of Central Vision 477
Fully Objective Era by Phase Spectral Analysis 270
Growth Mechanisms in Skulls with Facial Clefts 335
Hearing Screening Technique for Newborns 1
High Position of the Jugular Bulb 340
Human Epiglottis 554
Immunological Investigations in Laryngeal Cancer 388
Immunological Status of Allografts in the Middle Ear 539
Impulse Noise in the Especially Pathogenic Impact Frequency Range 264
Interferon Production by Tonsillar Lymphocytes, Effect of Ozone and Photochemical Oxidants 567
Labyrinthine Organs, Ionic Composition of the Endolymph and Sensory Transduction 466
Laryngeal Carcinoma, Possibilities and Limits of the Systematic Immunological Monitoring 393
Laryngeal Secretions 129
Lymphatic Cells in the Human Tonsil and Demonstrations of the Age-Dependent Pool Size Reduction 560
Mastoid Process, Population Differences in Cellularity 461
Meniere's Disease: Etiology and Natural History 410
Nasal Airway Resistance of Hypercapnia and Hypoxia in the Dog 545
Nasal Polyposis 330
Nerve Endings in the Cochlear Nucleus on Morphological and Experimental Basis 47
Neural Connection of the Outer Haircell System 381
Noise Levels in Ear Surgery, Preoperative Drill-Generated 458
Non-allergic Rhinitis, Chronic 324
Nystagmus Alternans 404
Occupational Hearing Loss, The Significance of Asymmetrical Hearing Thresholds 255
Organization of the Vestibular Apparatus of Rats Exposed to Weightlessness for 20 Days on Board the Sputnik "Kosmos-782" 90
Physiologie Générale du Goût 223
Preneural Phase of Taste 228
Primary Vestibular Afferents, Efferent Controlled Integrating Functions 472

Riech- und Schmeckprüfungsmethoden und ihr klinischer Wert 236
Semicircular Canal of the Skate, Raja Erinacea 528
Surgery of the Mixed Laryngocele 142
Sympathetic Effects on Hearing 69
Taste Disorders, Clinical Aspects 232
Tectorial Membrane: A Possible Sharpening Effect on the Frequency Analysis in the Cochlea 267
Temporal Bones, Fluid Pathways 310
Temporary Tinnitus Suppression in Man through Electrical Stimulation of the Cochlea 294
Tracheal Mucosa Microvasculature and Microcirculation 123
Treatment of Cholesteatoma with N-acetylcysteine 362
Tubal Function, Growth Influence 451
Vestibulo-Ocular Reflex in Newborn Rats 484
